

Hello my friend and a warm welcome to Saudifootballweekly.com, the only information site on Saudi football, that you will ever need.

We will inform you about everything that goes on in Saudi football, give you news, statistics, insights, outlooks and evaluations.

But it doesn't stop there !

We want to turn you into an expert, a true professional when it comes to Saudi football. So we invented a challenge to test your skills. We call it the ' Prediction challenge'

It is completely free of charge since it comes as a bonus with your monthly subscription.

The challenge is to predict the winner in 7 of the weekly games of the Saudi pro league and the exact result in the other 2 games.

You will receive 8 Tokens every month with your subscription and can use 2 per week to participate in the 'Prediction challenge'. All Tokens will be redistributed to the participants who have predicted the right results. To make it more fair and interesting we will divide all collected Tokens into 3 equal pools. The requirement to get your share of the pool/s are :

Pool 1	Pool 2	Pool 3
7 Games right	7 Games right + 1 exact Score	7 Games right + 2 exact Scores

All Tokens in the pool will be equally shared between all participants, who predicted the right results. For example, if there are 1000 Tokens in pool 1 and 20 participants get the result correct, every one of them will receive $(1000/20 = 50)$ 50 Tokens into their wallet. Tokens can be redeemed or used to enter the next weekly prediction challenge.

If you predict correct to qualify as a winner in pool 2 , you automatically win your share of pool 1 as well. Winners of pool 3 win as well a share of pool 2 and pool 1.

In the case that no one gets the results right, we create a jackpot for the respective pool, that will roll over to the next week.

Have fun, while you improve your knowledge of Saudi football !
